Dead Island V.1.0.0 Trainer

download the trainer from this page, unzip the trainer and copy the "dead_island_v1.0.trainer" folder to your game's data directory (usually \steam\steamapps\common\dead island or \steam\steamapps\common\dead nation). the trainer is in

the form of two files,
one for the jump
sequence and the
other for the swimming
sequence. these are
the only two
sequences in the
trainer that are
required to be
unlocked in game. the
rest of the trainers are
locked. this trainer is
not an official trainer. it

is a trainer that has been made from a legal trainer and the body. this trainer uses a technique that calls for a trainer that needs to be played with a few exploits. you need to have a trainer that is not working on the modded version of the game or a trainer that allows you to edit the

game files. the trainer itself can be found here. if you download the trainer file, you will need to find the body file (for this trainer) and the models file (for this trainer) and place them into the trainer folder. this trainer is for the mobile version of dead island. the body is called physio9 and is

contained in the models folder. the models folder is the models pack for dead island that is needed to play this trainer. the models folder is in the moddb download page of the dead island v.1.0.0 trainer. you can download the bodies and models from here. if you download the

trainer file, you will need to find the body file (for this trainer) and the models file (for this trainer) and place them into the trainer folder. this trainer is for the mobile version of dead island. the body is called physio9 and is contained in the models folder. the models folder is the

models pack for dead island that is needed to play this trainer. the models folder is in the modddb download page of the dead island v.1.0.0 trainer.
